Profi Line

Cooling table, ventilated, 3 doors GN 1/
1(405 Lit.)

Your professional partner

Brand : DIAMOND

- Monobloc structure, interior and exterior (also the back) construction in austenitic stainless steel (food), upper top (40 mm).
- Stamped inside bottom with draining cap (high maintenance), rounded angles and corners (without bumps), racks and slides (anti-swinging) in stainless steel.
- Doors, with built-in handles (not salient), magnetic joint (easy replacement, without tools), hinge with automatic return (blocking at 90°), 1 grid by door.
- Compressor group in climatic class 4, ventilated condenser, placed on the left side, frontal accessibility (panel on hinges), on "removable" slides, easy cleaning and maintenance.
- Refrigerant R290.
- Ventilated evaporator (oversized), treated against the salt and the food acids, completely hidden (not visible).
- Programmable electronic regulator (under sealed box, waterproof), display on front.
- Automatic defrosting (programmable as one pleases), automatic evaporation of the condenser.
- Polyurethane insulation without CFC.
- Adjustable stainless steel feet.
- The equipment is manufactured following the (CE) standards in force.

PLUS:

- The new Profi Line tables are "eco-responsible" because of the R 290 ecological refrigerant.
