- Refrigerant R290.
- Doors with magnetic joints closure (pressure), ergonomic handle , hinges with closure at 100° and door closure with automatic return.

ADVANTAGE:

Store large quantities of bottles or cans (3 rows of 50 cl bottles per door) and keep them really cold using BOTTLES Line bottle coolers (made in Europe). Efficient, silent and eco-responsible, environmentally friendly R290 refrigerant, components with low energy consumption, electronic regulator, etc. After-sales service and maintenance operations are facilitated by the removable unit on sliders. Numerous kit options, e.g. 2 or 3 drawers, etc., so you can customise the setup however you want.
